Professional Summary

Final-year B.Tech Computer Science student specializing in Cyber Security and Forensics with hands-on experience in HashiCorp Vault, Jenkins CI/CD, and secure application development. Passionate about security engineering, vulnerability assessment, and building secure, scalable systems.

Technical Skills

Programming & APIs: Java, HTML5, CSS3, FastAPI, REST APIs

Cybersecurity: HashiCorp Vault, Secure CI/CD, Secrets Management, RBAC, Vulnerability Assessment

Tools & Platforms: Git, GitHub, Jenkins, Linux

Databases: MySQL, MongoDB

Experience

Anantixia Pvt. Ltd.

Mar 2026 – Present

Web Developer Intern — Security Engineering

- Implemented HashiCorp Vault with Jenkins for centralized secrets management across CI/CD pipelines.
- Configured RBAC policies for secure credential access and secrets management across CI/CD pipelines.
- Developed responsive dashboards by integrating REST APIs and converting Figma designs.

Nauka Foundation

Jun 2024 – Jul 2024

Social Internship — Web Developer

- Developed and maintained the organization's WordPress website and informational pages.
- Designed and deployed a responsive donation page to support online fundraising.
- Improved website navigation and user experience through content organization and page optimization.

Projects

ATLAS – Advanced Testing Lab for Application Security

- Developed a FastAPI-based cybersecurity platform for automated Web and IoT vulnerability assessment.
- Integrated REST APIs, Nmap, and OWASP Top 10 practices for automated security testing.
- Built interactive dashboards with automated HTML/JSON security reporting.

ATS Resume Builder

- Developed a full-stack ATS resume builder with job description analysis and resume optimization.
- Built REST APIs for resume generation, profile management, and PDF export.
- Designed responsive interfaces to simplify resume creation and customization.

Education

UPES, Dehradun

Aug 2023 – Present

B.Tech in Computer Science Engineering (Cyber Security and Forensics)

CGPA: 7.95/10

Dewan Public School, Meerut

2022

CBSE

Certificates

- **Understanding LLMs and Basic Prompting Techniques** – CodeSignal
- **Detecting and Responding to a Cyber Attack** – Texas A&M Engineering Extension Service (TEEX)

Achievements

- Published a research paper on **Post-Quantum Cryptography**, proposing a risk-based framework for securing hybrid enterprise networks.
- Organized a technical hackathon under the **HyperVision Student Chapter**, leading event planning and technical coordination.
